

Music Learning Journey

At KCA our aim is to have students perform, listen and evaluate music. We work on singing and compositional techniques where students understand how music is created by exploring techniques used in all types of genres of music. Students follow a musical journey where they focus on different periods of music and styles where they adapt and develop a thirst for learning and curiosity for the subject. We are committed to ensuring that students understand the wider values of music. Our student can develop an understanding of culture and history as well as the different ethnicities of musical styles and techniques around the world.
